SALMING.
no nonsense.

SALMING HIGH PERFORMANCE

MAN

High Performance is produced in materials with high function to make your performance outstanding.

COOLMAX® fabric is the performance fabric that includes an effective fibre based moisture management system.

All Performance boxer have a Wide Quick Dry elastic waistband with woven logo all around.

The mesh panels are placed for optimum sweat transportation and for keeping you dry and fit. Machine wash 40 degrees.

Salming Performance is produced in comfortable cotton stretch and Bamboo. Focus on soft durable fabrics. Our products are produced according to Oeko-Tex standard.

NEWS • NEWS • NEWS • NEWS

Bamboo fabric has a natural sheen and softness that feels and drapes like silk but is less expensive and more durable.

Bamboo is naturally anti-bacterial and anti-fungal supposedly because of a bacteriostatic agent unique to bamboo plants called "bamboo kun" which also helps bamboo resist more harboring odors than cotton and doesn't need artificial irrigation.

Bamboo is highly absorbent and wicks water away from the body 3 to 4 times faster than cotton.

The structure of bamboo fibers make bamboo fabrics more breathable and thermal regulating than cotton, hemp, wool or synthetic fabrics.
